SERVICES

Armed Security

Armed security provides trained, licensed personnel equipped with firearms to protect people and property. They deter threats, respond to emergencies, and manage risks in high-security environments like banks, VIP events, or sensitive sites.

Unarmed Security

Unarmed security services provide trained professionals to ensure safety by deterring threats, managing access, patrolling, and responding to emergencies. They offer a, non-threatening approach to protect people, property, buildings, companies, etc.

Surveillance

Surveillance services use advanced technology and trained professionals to monitor activities, detect threats, and ensure security. Through CCTV, alarms, and remote monitoring, they protect people, property, and assets by preventing unauthorized access, theft, or suspicious behavior.
